VU HUU DO

Backend Developer — .NET / C#

Ho Chi Minh City, Vietnam • +84 347 299 934 • vuhuudo2004@gmail.com • github.com/vuhuudo • linkedin.com/in/vũ-hữu-đô-b899bb360

SUMMARY

Backend developer with 1.5 years building .NET services. Designs APIs with ABP Framework / ASP.NET Core, EF Core and SQL Server, including data import & validation pipelines and approval workflows. Strong in authentication & authorization (OpenID Connect, OAuth2, RBAC) and system integrations.

CORE SKILLS

Backend: C#, .NET (ASP.NET Core), ABP Framework, Entity Framework Core, REST APIs
Auth & Security: OpenID Connect / OAuth2, PKCE, client credentials, RBAC, audit logging
Data: SQL Server (T-SQL, migrations), PostgreSQL, ClickHouse, data validation
Integration: Service-to-service APIs, data synchronisation, webhooks
Quality & Ops: xUnit, CI test gates, Docker, Linux, monitoring
Secondary: React + TypeScript, Python, Rust

PROFESSIONAL EXPERIENCE

Web & Database Developer — Hoan Cau Group

June 2025 – November 2026 · 1 yr 5 mos · Ho Chi Minh City, Vietnam

- Designed and shipped .NET APIs for production platforms: enterprise reporting (import & validation, approval workflows) and project data management.
- Built domain, data and API layers: ABP modules, EF Core + SQL Server schemas and migrations, REST endpoints for SPAs and other systems.
- Implemented central authentication: OpenID Connect / OAuth2, PKCE, client credentials, role-based access, session and audit tracking.
- Delivered service-to-service integrations and a data lakehouse backend (Python, ClickHouse, Rust parsing core); wired xUnit and integration tests into CI.

SELECTED PROJECTS

Enterprise reporting platform
ABP / .NET · EF Core · SQL Server

- Import & validation pipeline, approval workflows and reporting APIs.

Central authentication (SSO) service
ABP / .NET · OpenID Connect · SQL Server

- OIDC flows, RBAC, session & audit tracking, user-lookup APIs for other systems.

Project data platform
ABP / .NET · EF Core · SQL Server · Docker

- APIs for coordination, member invitations and master-data sync.

EDUCATION & LANGUAGES

Bachelor of Artificial Intelligence — Van Lang University, Ho Chi Minh City (2023 – 2026) · Vietnamese (native) · English (elementary)
