SUMMARY

Full Stack Developer with 1.5+ years of hands-on experience building and operating enterprise platforms at Hoan Cau Group. Works end-to-end across .NET (ABP Framework), React + TypeScript, SQL Server and the Docker/Linux infrastructure with CI/CD and monitoring. Experienced with OpenID Connect single sign-on (OpenIddict) and Python + Gemini API automation. AI graduate (Van Lang University).

EDUCATION

Bachelor of Artificial Intelligence
Van Lang University
2023 - 2026

LANGUAGES

Vietnamese: Native

English: Elementary

SOFT SKILLS

- Self-learning & adaptable
- Teamwork & collaboration
- Technical problem-solving
- Clear written communication

PROFESSIONAL EXPERIENCE

Web & Database Developer — HOAN CAU GROUP

June 2025 - Present · Ho Chi Minh City, Vietnam

- **Full Stack Development:** Build and operate internal platforms end-to-end — ABP Framework (.NET) APIs, React + TypeScript UIs and SQL Server — including **HCG EPM** (group financial & fund reporting) and **HCG CDE** (construction project data).
- **Identity & SSO (HCG ID):** Developed **MagicAuth**, a centralised OpenID Connect single sign-on service for internal applications (HCG EPM, Master Data, CDE, CloudBeaver): role-based access, per-application catalogue, session & audit logs, service APIs.
- **DevOps & Delivery:** Own the pipeline for three environments (dev / UAT / production) on Docker & Linux: CI/CD (Gitea Actions), automated test gates, health checks, Prometheus/Grafana alerting, scheduled backups, rollback-safe releases.
- **AI & Automation:** Automate internal data workflows with Python (WSL) + Gemini API, removing repetitive manual processing for management teams.
- **Digital Transformation:** Led the Base.vn rollout across regional branches; track key project milestones and report progress directly to the Board of Directors.

SELECTED PROJECTS

HCG EPM — Group financial reporting platform

ABP / .NET · React · TypeScript · SQL Server · Docker

- Period-based reporting: MISA ledger import & validation, multi-company approval workflows, dashboards for accounting teams.
- Monitored three-environment setup with automated tests, health checks and backup/restore procedures.

MagicAuth (HCG ID) — Identity & SSO service

ABP / .NET · OpenIddict / OIDC · SQL Server

- Central single sign-on and application catalogue, with admin console for users, roles, sessions and audit history.
- Service-to-service APIs (user lookup, application members) for access verification and synchronisation.

HCG CDE — Construction project data platform

ABP / .NET · React · TypeScript · Docker

- Investor-side project data: coordination workspace, member invitations and master-data synchronisation.

TECHNICAL SKILLS

Backend:	C#, .NET (ASP.NET Core), ABP Framework, REST APIs, OpenIddict / OIDC, Entity Framework Core
Frontend:	React, TypeScript, JavaScript, HTML5, CSS3, responsive web design
Databases:	SQL Server, PostgreSQL, data processing (Python, Pandas, NumPy)
DevOps & Infra:	Docker, Docker Compose, Linux, WSL, Git, CI/CD (Gitea Actions), Traefik/Pangolin, Prometheus & Grafana, backup & restore, Bash
AI & Automation:	Gemini API integration, Python automation, workflow optimisation
